ONLY ROUTINE WORK.

Two Battalions Filled With New Supplies.

CHICKAMAUGA PARK, Ga., June 16.—Only routine work has been the order today. Two battalions have been partially fitted out with the new supplies recently received, and the Third battalion did not go out for drill this afternoon, because of not receiving the needed boots, shoes, blankets and underwear.

The health record continues to be unsurpassed. Lieut. W. F. Walker and Corporal Hunt of the Claremont company, with Capt. Lemuel Pope, Jr., of Portsmouth, went in to Chattanooga yesterday and journeyed up to the summit of Lookout mountain. They were there while the storm raged, and were up so high that some of the time they could look across the tops of the rain clouds and see the elevation over the way.

VITAL BLOW AT SPAIN

A Fleet is to Cross the Ocean to Meet Shores.

(Special to the Herald)
WASHINGTON, June 17.—The vital blow at Spain, predicted a week ago, is soon to be struck.

Sensational developments are scheduled to occur.

While the army is engaged with the movements against Santiago and Porto Rico, the navy has important plans under consideration.

The probability is that by the time Santiago and Porto Rico have been captured by the military forces, a fleet will be in readiness to descend upon the coast of Spain and the Canary Islands.

This plan has been in contemplation fully a week. It first developed in the president's mind when it became apparent that the prospect of peace was extremely remote. Up to a week ago it was supposed that Spain would appeal for an ending of the war as soon as she lost the island of Porto Rico and Admiral Cervera's fleet, with Santiago also in the possession of the U. S. forces.

WILL STAY AT HOME.

(Special to the Herald)
WASHINGTON, D. C., June 18.—One element of uncertainty may as well be eliminated from the war problem, and that is the arrival of another Spanish fleet. If Spain were looking for a fight the erstwhile Cape Verde squadron would not now be in a bottle. Heaven and Corvera only know what he was looking for, but it was something vastly different from a fight; and assume that the poorer half of the Spanish navy will be sent to share a like bottle fate or to court certain destruction, is to argue a reach of folly that even the desperation at Madrid is unlikely to compass. If Spain has any war plans they are not such as can check the United States. The likelier situation is that Spain has no definite plans, and is simply waiting for Santiago to fall. If this event can be stayed off for a measurable period the Spanish government may be able to improve the deplorable condition of affairs at home. That is the only avenue lit by the flickering torch of Hope.

DESERT THE SPANISH RANKS

(Special to the Herald)
KEY WEST, Fla., June 17.—Junta advice from the headquarters of the Cuban civil government at Las Guandajales, in Camaguey, reports that more than 5000 Spanish volunteers and many regulars from Puerto Principe and Nevitas garrisons have deserted to the patriot army. The immediate cause of desertion was the feared capture of the port of Navitas by the American fleet.

ANOTHER DOSE FOR CARDENAS.

(Special to the Herald)
KEY WEST, Fla., via Jacksonville, June 16.—Cardenas has had still another dose of Yankee gunnery. Blockhouses that rose from the ashes and the debris of those destroyed by our warships have in their turn fallen in ruins under heavy fire.

WILL LEAVE HAVANA.

(Special to the Herald)
KINGSTON, Jamaica, June 16.—The British warship Talbot has gone to Havana to take off the British consul and

British residents. It is believed here by military and naval officers that the end of the war is near.

VIZCAYA REPORTED SUNK

(Special to the Herald)
WASHINGTON, June 17.—It is reported unofficially that the dynamite cruiser Vizcaya landed a dynamite shell on the Spanish cruiser Vizcaya yesterday, totally destroying her.

SUBMARINE MINES.

Bill Reported for Punishment of Willful Injury to Same.

(Special to the Herald)

WASHINGTON, June 16.—The Senate committee on military affairs today authorized a favorable report upon the bill recently introduced at the instance of the war department, for the punishment of the willful injury of submarine mines, fortifications, or other works of defense of the Government.

The punishment provided is a fine not to exceed \$500 and imprisonment for five years.

The committee amended the bill by providing a like penalty for trespass upon such works.

Dover People Were Easy

About two months ago, a bright appearing chap arrived in the city of Dover, and after no little amount of labor, succeeded in instituting a branch lodge of the Knights and Ladies of Honor. The membership was about twenty and included some excellent people. An organization was effected and it was appropriately named Court Dewey. Thursday a member of Court Dewey, who is considered to be a man of veracity, stated that the organizer had suddenly left town, and that the new society mourned the loss of \$60 which he is alleged to have taken with him. It was also stated that a well known hotel proprietor would be pleased to receive a settlement, as would also a local firm which kindly advanced a sum of money. The organizer is reported as saying that Dover's climate agreed with his health.

Our Soldiers in Readiness

O'Leary writes the Globe: "The third brigade of the third division, First army corps, in which the First New Hampshire, took part in a battle exercise this afternoon. Colonel Rolfe's regiment composed the first line, and it went through the exercise with a snap and vim worthy of regulars. Requisitions for new rifles for this regiment have already been made and Colonel Rolfe expects to have them within 48 hours. Underclothing, socks, etc., were given out today, and after the rifles have been received very little more will be needed to place the regiment on a strictly fighting basis. Those in the hospital are getting better and fewer are reporting for medical treatment each morning."

A Chip of the Old Block

A yellow journal tried to get George Dewey, Jr., son of Admiral Dewey, to become a member of its staff at the satisfactory salary of \$5,000 per annum. Dewey replied that he had had no experience in newspaper work. Oh, never mind that, said the yellow. Just go along to the front, get aboard the fleet and sign your name to articles one of our young men will write you. But Dewey, Jr., although he draws but \$65 per month, being a son of his father, indignantly replied that he was not that sort of a man and declined the offer.

AN ENTERPRISING DRUGGIST.

There are few men more wide-awake and enterprising than the Globe Grocery Co., who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness, and all affections of the Throat, Chest and Lungs. Call at above store and get a trial bottle free or a regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

The Water Exhibition at Badger's Island.

Saturday evening at 8 o'clock the last Naval Display will take place at Badger's Island Bridge. Prof. Old reive will fight the ships, walk on the water and explode the bombs. The fireworks will be the most brilliant display yet made, and the whole scene will be brilliantly illuminated with calcium light. In the afternoon at 3 o'clock there will be a water display for the children, bombs, balloons and boats.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure; Doan's Ointment. Absolutely safe; can't fail.

DESERTERS TAKEN BACK

Palmer and Hartman will be Court-martialed at Portsmouth.

First Sergeant Ditters and Private Leach of the regular army came to this city on the noon train today and will take back on the 1:57 train, Palmer and Hartman who were arrested here yesterday by Marshal Lattime.

Sergeant Ditters says that the two men got away some time between nine and eleven o'clock Tuesday.

Palmer sold his army overcoat besides other property. A court martial will be convened as soon as they arrive in camp.

Sergeant Ditters stands six feet and one-half an inch and Private Leach stands six feet, two inches. They are both fine looking men.—Noahyport News.

War Taxes at a Glance

This is how war taxes are to be raised: Beer and ale \$5 a barrel, tobacco 12 cents a pound, cigars \$3 per thousand, cigarettes, \$3.06 per thousand, bank checks 2 cent stamp.

Manifests of express packages, 1-cent stamp, long distance telephone call 1 cent, indemnifying bond 50 cents, life insurance policy, for each 100, 10 cents, telegraph message, 1 cent.

Benefit society insurance—40 per cent, of first week's premium.

Fire insurance—One half of 1 per cent on each dollar insured.

Lease—One year, 25 cents; three years 50, over three years, \$1.

Mortgage—Under \$1500, 25 cents; for each \$500 over \$1500, 25 cents.

Passage to foreign countries—Not exceeding \$30, \$1, not exceeding \$60, \$3; over \$60, \$5.

Patent medicine—For each 5 cent value, one-eighth of 1 per cent.

Perfumery—For each 5 cent value, one-eighth of 1 per cent.

Oil and sugar—Refiners are taxed one-fourth of 1 per cent on gross receipts exceeding \$250,000.

Mixed flour—Four cents barrel; tea 10 cents a pound; wine, 1 cent per pint.

Navy Yard Notes

Assistant Engineer Edward M. Jennings U. S. N., reported for duty this morning on board the U. S. S. Piscataqua.

The work on coaling the Piscataqua was continued today.

Andrew J. McIntire is on the sick list.

Tobias Burke and James Goodrich of Portsmouth have taken an examination for the appointment of foreman outside shipfitter at the Boston yard.

There are a number of families on the yard who have a deeper interest in the progress of the war than any other people hereabouts because members of their families are now camped on Cuban soil.

River and Harbor

Schooner Katherine D. Perry, Garfield, has arrived from Philadelphia with 1700 tons of coal for the Messrs. J. A. and A. W. Walker.

Bricker Hattie Lewis came around from Boston last evening.

Barges Oakland and McCauley are due at this port from Newport News with a cargo of coal.

Tug Piscataqua returned from Boston last evening with the barges Dover and Berwick in tow.

Tug Mathes came around from York yesterday with the barge York in tow.

The U. S. steamer Corn Peterson, New York for Portland, was reported below this morning.

Funeral of James D. Holland

The funeral of James D. Holland was held from the church of the Immaculate Conception this morning. Rev. Father O'Callaghan conducted the service in the presence of a large number of relatives and friends of the deceased. A delegation from Court Rockingham, Foresters of America, attended the funeral in a body, the deceased being a prominent member of that organization. Interment took place in St. Mary's cemetery.

Had to Give Up

Paymaster Joseph Foster, U. S. N., who was ordered to Key West to take charge of the general store there, has been ordered home. The duties at that station were most exacting and trying and he was given four assistants, but with the change of climate and ceaseless work he was stricken with illness and Commodore Remy ordered him home for treatment.

Daughters of Liberty Picnic

The members of Addie F. Burkitt Council, Daughters of Liberty, picnicked at York beach on Wednesday, going down on the electric. A most enjoyable outing was held.

KITTERY, ME.

Registered at Piscataqua house; A. P. Wood, Boston.

Children's day at Second M. E. church has again been postponed this time to June 26th.

Miss Mary Houscom of Manchester, who has been visiting relatives in town, returned home today.

H. F. Windrich of Manchester, who is employed in steam engineering machine shop will move his family here this week into the double tenement on Central street, owned by Jethro H. Swett.

The Kings Daughters will meet with the Misses Pray, Woodlawn avenue, on Monday evening at 7:30 o'clock.

Regular class meeting at Second M. E. and prayer meeting at Second Christian churches tonight.

The republican town committee are to get their heads together this evening.

Tax collector Alfred Sterling is distributing tax bills. Pay right up and have done with it. You can't get rid of it any more than McKinley can with the war, by hanging back.

It will please her many friends to know that Mrs. J. H. Sweet is able to get up for two or three hours each day. Quite a number of our citizens will visit the Hub today.

Dewey 1 Sampson 1.2, Schley 0.2.

AT GUANTANAMO.

The report of the engagement at Guantanamo has shown two things; that the Spanish troops are not lacking in courage and daring, and that the United States army is not a whit behind the navy in nerve and coolness.

Whilst the possibility of annihilating a foe without loss of life to a superior attacking party was plainly shown at Manila, an infantry battle is a different matter. The men of the latter are unprotected by armored bulwarks, and the extent of casualties is conditioned by the accuracy of the enemy's fire.

But the spirit of our soldiers is the same as that of our sailors. Colonel Huntington's marines disclosed the same eagerness for the fray that was shown by the blue jackets at Manila, and only the conditions were waiting for paralleling the superb dash of the Gordon Highlanders at Dargal Ridge.

As the report reads, the skirmish at Guantanamo was a fiery baptism for a large share of the marines. They fought in darkness and on an alien shore; but they fought as fought the men of Lexington, of Benington and Bunker Hill. All honor to the living and the dead!

York

Lawyer Gage of Worcester, Mass., was in town yesterday.

A party of Methodist enthusiasts attended the lecture at the Methodist church, Kittery, on Wednesday last.

Mr. Bert Barrus was in town yesterday inspecting the telephone wires.

The obsequies over Mrs. Nancy Bonnet were performed at the Congregational church Thursday afternoon.

The schooner A. T. Haynes, Captain Perkins, has arrived at Marshall's wharf where she will discharge her cargo of cement.

The whist party at Mrs. J. T. Davidson's yesterday was the event of the season. At the intermission refreshments of ice cream and cake were served. The prizes were awarded to the following persons: Miss Florence Varrell, Miss Florence Paul, Miss Edna Moody and Mr. Davidson.

CITY BRIEFS.

Spalding bicycles can't be beat.

Sawelle's one ring circus is to show here June 24. His advertising wagon was around town today.

Arrived today for J. A. and A. W. Walker, schooner James Brown, Symonds, from New York, with 500 barrels imported cement.

Promises to Be Sensational!

A Pinkerton detective has been in town today working up what promises to be a most sensational episode. A Portsmouth man is concerned in the case together with a Dover married lady. A partner of the sleuth who is working up the Portsmouth end is laboring in Dover and the two met here last evening and compared notes.

Imported.

"Ah," said the Jacksonville man, as he sat in his luxurious library, "there's nothing like a good Havana cigar!"

And over in Havana the wealthy Cuban who was smoking turned to a friend and remarked ecstatically: "This is what I call a good cigar. It's a Florida product. I import it myself."—Philadelphia North American.

He Wants a Perfect.

Giles—I just heard that Hawkins referred to me as a perfect idiot.

Smiles—Oh, I don't mind what Hawkins says. He always does exaggerate more or less. I'm sure no one believes you are perfect.—Exchange.

A Shrewd Photographer.

A Fifth avenue photographer has lately completed a system by which his pictures of babies have become famous. He has discarded all the familiar expedients of his profession to persuade very young children to submit to the camera and his scheme has been completely successful. One part of his gallery has been fitted up like a nursery.

Around the room at convenient points are situated cameras and these are in charge of his assistants. The photographer devotes his attention to the baby.

He tries all the toys in turn, gets on a intimate terms with the baby, and after such short acquaintance and gradually brings the unsuspecting infant into looking his best. When pose and expression are satisfactory, he gives a signal to one of his assistants at the camera and the trick is done. Mothers bring their babies from all quarters to this tactical photographer. It would be a difficult matter to find any child who would not, after ten minutes' session with toys, exhibit some expression that his parents would be proud of. The artist catches that expression and as many other agreeable ones as possible.

The final delight comes to the mother when she receives the proofs, not sent as proofs usually are, but mounted on a large piece of cardboard which makes it possible for her to compare them simultaneously. This wise man has left nothing undone which could strengthen his hold on the babies and their photographers.—New York Sun.

A Writing Librarian.

There is really nothing in the world more pleasant than a cheerful willingness to oblige on the part of a public servant. I wish especially to commend a young clerk up at the new library for the thoroughness with which he attends to his duties. One of my friends went up to the library the other day and asked for "Butterflies, a Tale of Nature," by James Lane Allen. The reader's name was gone through with. My friend took a card at a reading table. Presently a clerk at a desk approached her. "I couldn't get just the book you wanted," he said politely. "But here is something on the same subject. And he handed her a treatise on Lepidoptera, in two volumes, by a scientist with half the alphabet after his name.—Washington Post.

English in Japan.

Here are some attempts at English to be seen on the signboards in the streets of Tokyo.

"Wine, beer and other machines."

"A shop, the kind of material, a price or stick."

"The shop for the furniture of the several countries."

"Prices, no change or discount."

"All kinds of sugar, biscuits kept here."

Now

Is the time when you should take a Spring Medicine to purify your blood, give you good appetite, sound sleep, steady nerves and perfect digestion.

That scrupulous habit, that skin trouble, that liver difficulty, that bilious tendency, that tired feeling, are all cured by Hood's Sarsaparilla. Give this medicine a fair trial and you will realize its positive merit. It is not what we say, but what the people who are cured say, which proves that

FOR PORTSMOUTH

PORTSMOUTH'S INTERESTS.

You want local news? Read the Herald. More local news than all other local papers combined. Try it.

FRIDAY, JUNE 17, 1898.

Senator Platt is said to be in a Black from of mind.

Poor old Portugal is anxious for an early cessation of the war in order that her commerce may be saved from further loss. Yet it was Portugal herself that encouraged hostile operations by allowing the Spanish fleet the free use of her seaports.

Several of the Paris newspapers which have hitherto been eager sympathizers with Spain have turned about and are now bubbling over with expressions of friendship for America. The fact is that the average Paris journal can reverse its principals just as easily as an ordinary man can change his cuffs.

Undoubtedly the barbarous mutilation of the bodies of the dead American soldiers at Guantanamo by Spanish monsters proves that Butcher Weyler's example has been studiously imitated by his followers. Yet, in spite of this hideous savagery, the Americans will continue to fight the war just as if would if Spain were a civilized nation.

At last Gen. Shafter and his 15,000 or 16,000 troops are en route to Santiago. Never has a marine parade of such grandeur and significance been started under the auspices of Uncle Sam. Could Blanco but witness the moving spectacle from the roof of his palace in Havana he might be prompted to cable home for a vacation on the ground of suddenly developed heart trouble.

OF INTEREST TO CYCLISTS.

The Stevens Manufacturing Co. of this city are putting up a Liquid Metal Polish which is unsurpassed for cleaning and polishing bicycles. With very little labor their Metal Polish removes from handlebars, spokes and other parts of the bicycle, in the most thorough and expeditious manner, all accumulations of matter or impurities and imparts a brilliant lustre to the metal. The package is gotten up very attractively and bears their trade mark, "Old Man on the Mountain." The price is very reasonable, being ten cents a bottle, only. This polish will be welcome to every bicyclist who likes a clean-looking wheel.

MISS WHITTIER'S SONG RECITAL.

Tickets for Miss Harriet S. Whittier's song recital at Pease hall on Tuesday evening next are on sale at Hoyt & Dow's. There is a general desire to hear this talented lady. The *Old South Record* says: "Miss Harriet S. Whittier has for several years been soprano at Dr. Edward Everett Hale's church. She is a charming lady and an ideal soprano soloist. Has a voice full of sympathy and especially cultivated to carry beautiful spiritual messages in song. Has sung with great acceptance with the Boston Symphony orchestra and is one of the most acceptable and enjoyable sopranos in Boston."

HOW TO LOOK GOOD.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at the Globe Grocery Co.'s store. Fifty cents per bottle.

The Spanish warship sighted in the Pacific must be one of the flying squadrons. It probably flew over the isthmus.

War News.

Santiago Again Bombarded.

Fortifications Destroyed And Guns Dismounted.

THE SPANISH TROOPS AT GUANTANAMO HALF STARVED AND DISHEARTENED.

Another Bombardment.

On board the Associated Press dispatch boat *Dauntless*, off Santiago de Cuba, June 16, via Kingston, Jamaica, June 16.—Rear Admiral Sampson's fleet bombarded the fortifications at Santiago de Cuba for the third time at daylight this morning. Cervera's fleet and the batteries at the right and left of the entrance of the harbor responded. The fortifications near which is the prison where Lieut. Hobson and other members of the Merrimac crew are confined were not attacked. The western batteries were badly wrecked, and one was entirely destroyed. In the others many guns were dismounted. At first the Spaniards replied fiercely, but wildly, then most of the guns were deserted. Not a ship was struck or a man injured on the American side. It is believed that the enemy's loss of life was heavy. Judging from a position near the flag-ship, the New York fired 108 shots, and in all about 5,000 projectiles were fired, which would make a total weight of metal thrown off nearly half a million pounds.

Wants Coal.

GUANTANAMO, June 16.—The Spanish trans Atlantic liner, San Augustin, has arrived here from Cadiz for the purpose of shipping 1800 tons of coal. She has been detained by the British authorities pending the guarantee that the coal is intended for purely commercial purposes.

The Porto Rico Expedition.

WASHINGTON, June 16.—The war department expects to utilize thirty-five transports in the carrying of troops to Porto Rico. The estimate is made that the vessels will carry between 25,000 and 35,000 troops, with equipments and subsistence stores.

Vizcaya Struck.

MADRID, June 16.—Cervera cables that a shell from an American warship struck the Vizcaya, but owing to her excellent armor, the cruiser was not damaged.

A Spanish Soldier's Story.

CAMP McCALLA, GUANTANAMO BAY, June 15, via Kingston, Jamaica, June 16.—This afternoon a half-starved and ragged Spanish soldier crawled into camp and gave himself up. He expected to be shot and said he would freely die if they would only give him food and water, which he had not had for forty-eight hours. He said there were 2000 Spanish soldiers nearly famished in that vicinity, who would surrender if they believed their lives would be spared, but they had been told they would all be killed by the Americans as soon as they were in captivity. The Spaniard was given a good dinner and clothing and taken on board the *Marblehead* and placed with the Spanish soldiers captured yesterday. The *Marblehead's* steam launch cleaned out a

on a torpedo boat. He asked the firm whether his place would be held for him if he enlisted, and the firm bade him wait till the unmarried men were exhausted.

The other brother is Capt. John Spicer of company A, Second Tennessee volunteers. He enlisted several years ago as a private, and had reached the captaincy by regular stages before the Maine was blown up. He is with his regiment at camp Alger.

AT GALES FERRY.

Gales Ferry, Conn., June 16.—The Harvard launch, Frank Thompson, returned to quarters from New London today, where she has been undergoing repairs. Mr. Lehmann has been greatly handicapped for the lack of his launch, and had almost decided to avail himself of Mr. Cook's offer of the Yale launch for today's practice.

Both the varsity and freshman crews went out in their shells this morning, but the practice was short, owing to the fact that many of the oarsmen had examinations during the forenoon. There were no changes in either of the crews and both rowed fairly well. The freshmen appeared to be doing better work than the varsity, although the break in the varsity shell at No. 2 showed signs of disappointing.

The Yale freshman crew was the first of the various college crews now at work on the river to get into their shell. Coach Rodgers taking them out at 8:30. At noon the Yale varsity crew was out on condition for rowing, and the prospective sophomore of Yale spent nearly two hours rowing up and down near their quarters. This shell is traveling very rapidly nowadays, and the Yale freshmen give indications of rowing a fast race on June 23.

The Yale varsity crew was delayed in getting out by examinations, which occupied them until 10 o'clock. In the meantime Mr. Cook prepared the Davy shell, adjusting the measurements to those which have proved satisfactory in the Clasper boat. When the varsity went out, Coach Rodgers had rounded up the water considerably, and Mr. Cook took his men to Johnson's Cove, where opportunity was had for a mile spin in smooth water. The Yale crew is showing no signs of reticence, and the shell moved gracefully and speedily today.

The 31 men who include the champion Cornell varsity crew and their freshman eight were up bright and early this morning, after a splendid night's rest, and all of the Ithaca oarsmen were eager for work on the Thames. Every thing was made and excitement at the quarters during the forenoon.

Coach Courtney early discovered that alterations of minor importance were necessary in the boat which had been prepared for the Cornellians by the regatta committee. The attention to adjusting the shell, and at 10:30 of the crews shot out on to the river. The crews hugged their quarters closely, probably to get out of range of the glasses, which were undoubtedly leveled upon them from up the river. The varsity of the Harvard and Yale crews.

The Cornell men did not bother themselves out to any extent. Mr. Courtney continued himself with his men, but they were not so much in the mood to get out. The varsity shell, however, did not get out until 10:30, and the waterman was a thing of beauty. The Cornell freshman crew of this year appears to be faster than the Cornell crew.

Mr. Courtney is to have his oarsmen in complete working trim by tonight.

TEMPLE DEDICATED.

Wilton, N. H., June 16.—The new Masonic temple, a gift of Hon. David A. Gregg of Nashua, was dedicated here with appropriate ceremonies today. Mr. Gregg announced his intention to erect a Masonic temple to Clinton Lodge, A. F. and M. of this place, two years ago. Today's dedication marked the fulfillment of the promise.

The dedication program was begun at 12:30 o'clock and was under the direction of the most worshipful grand lodge of New Hampshire. At 1:30 the public exercises opened with addresses of welcome by George E. Bates of Wilton and John M. Jones of Nashua. The grand lodge of the grand lodge of New Hampshire, Governor G. A. Ramsdell then was introduced and he made an address. This was followed by an address by Charles H. Burns of Wilton. A banquet was served at 2:30 o'clock. During the afternoon, and at 8:30 this evening there was a reception at the town hall, followed by a grand ball.

The building dedicated today stands on a site which the grand lodge of New Hampshire has owned since 1832, took up several thousand acres in the Huron tract and began building a homestead.

The long creek, then the fashion, the one day the mortar needed for the building of the fine-laid brick. Mr. Ramsdell cut off the "Hyperion's curls," chopped them up into lengths and mixed them in the mortar.

"The chimney corner to this day," says The Canada Company, "bears testimony to the riches on the outside of a cranium and to the bump of determination they covered."

A Grain of Comfort.
A man who talks all the time occasionally says something that is really worth hearing.—*Scoville Journal*.

A Household Necessity
Cascara Candy Cathartic, the most pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cleansing the entire system, dispels colds, cures headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. Candy, 10¢, 25¢, 50¢. Sold and guaranteed to cure by all druggists.

For Over Fifty Years
Mrs. W. H. Scott's Candy has been used for children teething. It soothes the child, softens the gums, keeps the cavity, cures wind colic and is the best remedy for Diarrhea. Twenty-five cents bottle.

For that tired feeling you must enrich and purify your blood. Hood's Sarsaparilla is the medicine you need.

When bilious or constive, eat a CASCARA Candy cathartic, sure, guaranteed 10¢.

A WOMAN'S WIT.

She Dressed Her Husband's Anger and Won Him to Success.

"Know him?" asked one of the two men talking at the corner as he nodded toward a handsome old gentleman just passing by. "No? Well, sir, that's Dr. Blank, the noted surgeon. I've known him ever since we used to frequent the same swimming hole. Just how long that was before the war I'm not going to say. He was in the race for the girl he married, and if he hadn't the chances are that the doctor would still be driving, night and day, over a little back country, attending to a practice that couldn't pay if it wanted to."

"When they were back there in the woods and he was performing operations that no other member of the profession had thought of undertaking, she gathered from the talk of friendly doctors in the same section that he was original, daring and successful. She begged him to advertise his abilities, but he sternly rebuked her for asking him to transgress the ethics of the profession."

"But you know how it is when a bright woman sets her head. The doctor's office was a shabby little den without carpet, window shades, pictures or anything else but the plainest furniture. He resisted all her efforts to change this. One evening he came home from a 36 hours' stay with a patient to find that office so transformed in velvet carpet, tapestries and pictures that he flatly declined to enter it. His wife was away on a visit. Men had been there, done the work and without doing him any harm, the home merchants knew nothing, and the doctor was so used that he advertised everything for sale. The thing was told in the local papers as a huge joke, and incidentally there were related some of the stories of how he took people apart and put them together again. City papers copied and city doctors ridiculed. The titled Blank, he proved that he had worked greater wonders than were credited to him, and he was famous. The means and the end were the work of the little woman who had figured them out before giving a secret commission to furnish that office."

—Detroit Free Press.

HANDKERCHIEFS WE USE.

325,000,000 Single Ones Consumed In the Trade Yearly In This Country.

"Very few people outside the trade," said a leading wholesale dealer in handkerchiefs in New York to a reporter recently, "are aware that the consumption of handkerchiefs throughout the United States amounts to about 75,000 dozen daily. This means 27,575,000 dozen yearly, or 325,000,000 single handkerchiefs. To satisfy this enormous demand there are always kept in stock in this city at least 350,000,000 handkerchiefs. It would be extremely difficult to say what such a supply of goods is worth in the aggregate, as handkerchiefs sell at wholesale at anywhere from 30¢ to \$1.00 per dozen, according to quality and finish. But the figures which I have given you are not exaggerated, and they throw a strong light on the gigantic dimensions of an important branch of the dry goods business."

"A comparatively small number of handkerchiefs are manufactured in this country, and those that are made here are mostly of the cotton and inferior silk variety. The finest silk goods are imported principally from Japan, which country sends us annually between 17,000,000 and 18,000,000 Japanese handkerchiefs. The best cambric article comes from France and Belgium, and linen handkerchiefs come from the north of Ireland and also from St. Gall, Switzerland. Japanese silk handkerchiefs are worth from \$2.00 to \$4.00 per dozen, while the imported cambrics from Brussels sell for from \$5.00 to \$7.00 a dozen, and the cotton product manufactured in Pennsylvania and New Jersey may be had for 30 cents per dozen."

"The capital invested in this business is immense. It may possibly amount to \$100,000,000, but owing to the fact that the trade is distributed nothing like accurate figures can be given. There are six or seven firms in the dry goods district which deal exclusively in handkerchiefs. But only two of these houses handle the domestic article extensively. Most of the large American factories are located outside of the city, but New York, as in several other branches of the dry goods business, is the great distributing center for the world."

Sustaining His Curle.

A pint illustration of the sort of man who boasts the flows of circumstances is given in a story of the cotton and iron some Englishman who came to Canada in 1832, took up several thousand acres in the Huron tract and began building a homestead.

The long creek, then the fashion, the one day the mortar needed for the building of the fine-laid brick. Mr. Ramsdell cut off the "Hyperion's curls," chopped them up into lengths and mixed them in the mortar.

"The chimney corner to this day," says The Canada Company, "bears testimony to the riches on the outside of a cranium and to the bump of determination they covered."

Windfall, Kan., June 16.—William J. Bryan addressed a large crowd at the South Kansas Chautauquian assembly yesterday afternoon, talking strongly against the territorial acquisition. While here Mr. Bryan received a dispatch to be at Lincoln, Neb., without fail on Monday, when his argument would be mustered into service.

What is Scott's Emulsion?

It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do?

It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic, will stop the cough, heal the irritation of the throat and lungs, cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases.

Be sure you get SCOTT'S Emulsion, and get it out of all druggists.

ALL SOUGHT WAR PLACES.

President Besieged by Those Seeking Appointments.

MANY APPLICANTS, FEW PLACES.

Distribution of Minor Positions Has Occupied a Great Deal of Time—Tons of Supplies Being Shipped to Santiago For Sampson's Fleet—Some of the Lessons Thus Far in the Campaign—Madrid Gets News From Manila—Delay in Repairing Santiago Cable—Other War Dispatches.

Washington, June 16.—The president was besieged with congressional visitors today, practically all pressing war appointments. Up to a late hour in the forenoon, however, he had received no official dispatches of developments at the front. The president has watched keenly the work of the little band of marines on the coast of San Juan and today expressed the opinion that they had made a record far beyond anything that had been accomplished by them. He called special attention to the disadvantages under which they had fought, and added that under these circumstances he could not but pay high tribute to the valor and efficiency of the marines.

Half a million G.M.M. cartridges for the use of the landing party at Guantanamo are to be taken to that point by the auxiliary cruiser Yale when she leaves Norfolk today. The Yale will also take a quantity of lightweight clothing to the troops at Guantanamo. The Yale is en route to the vicinity of Santiago de Cuba with 300,000 pounds of fresh beef and mutton, kept in a compartment the temperature of which is 10 degrees above zero; 300,000 pounds of fresh vegetables in a compartment the temperature of which is kept at a maximum of 40 degrees, and a large quantity of ice. The Yale has aboard also and wines for such of the officers as may desire to purchase them, and a notion store from which the seamen can secure at the prices which prevail in New York any little delicacy which they may need.

Cartridges which the Yale will take to Guantanamo will be used to replace those used by the marine battalion now on shore. The cartridges fit the Lee rifles and machine guns, so that they can be used for both.

Upon the arrival of the Yale she will be used as a dispatch boat, and it is understood she will be available for such scouting service as Rear Admiral Sampson or the naval war board may deem advisable.

The Yale now has a battery of eight five-inch guns beside several six-pounders, and will be able to do good work, it is expected, in holding up the enemy's ships.

The dispatch of the Yale to the Caribbean sea, the Buffalo to New York and the Minneapolis to the northern patrol squadron effectively disproves the report that the navy department was organizing at Hampton roads a flying squadron for service in Spanish home waters.

The war department is hastening forward the preparations at Fernandina, Fla., which will make that point one of the most advantageous in the country for the concentration of a large body of troops. It is said at the war department that the special board which inspected Fernandina found the proposed camp grounds so suitable, by natural conditions and surroundings, that several thousand troops could be accommodated there today if it were necessary to institute the camp at once. The department calculates that the grounds will accommodate 20,000 troops when all preparations are completed.

HARD TO COMBAT.

The Evidence of our enemies—What Portsmouth People May Be Pretty Sure of.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. When our friends endorse it. No better evidence can be had. It is not what people say in Michigan. Or distant newspapers from California. No deceiving echoes from the public opinion published for the public good.

There is no proof like home proof. Home testimony at the back of every box of Doan's Kidney Pills. Can you believe your neighbors? Read this statement made by a citizen. Mrs. Mary A. Muehmore, of No. 1 Richmond street, says: "I noticed in a local paper an offer made by Doan's Kidney Pills to cure such cases as mine, and I sent to Phillips' Pharmacy for a box. They did me a world of good, and that almost immediately after I began taking them. They finally stopped the pain, and drove away the lameness. I think them a very superior medicine and I can recommend them to anyone." It is such evidence that settles the public and convinces that portion of it who read or listen while others read. It is such testimony that places the old Quaker Remedy in the van of kidney medicines, and it is such cures daily made and reported that will keep it there.

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute.

FRIDAY, JUNE 17, 1898.

See second page for important telegraphic war news and additional local news.

Jeremiah Lynch, employed on the steam coal diggers at the north end, came very near meeting with a sudden and terrible death while at work there on Thursday afternoon.

The coal in the hopper had got clogged and he went up with a shovel to trim the sides and start it running so as to fill the cars under it.

The hopper opens and closes by steam at the will of the operator. Lynch had no sooner got into the hopper than the coal gave away and he went with it towards the opening in the bottom.

The operator, seeing Lynch disappear from view, quickly closed the slide, but was just in time to catch him under the arms and left him dangling in the air.

His cries warned the man at the lever that all was not right and he opened up again and Lynch dropped through on the coal car and was nearly buried from sight with several tons of coal.

He was dug out, more dead than alive, and will be laid up for several days to come by his injuries. He was extremely lucky to escape with his life, for if the slide had caught him around the neck it would have strangled him.

They Disappeared.

"My boy suffered from scrofula bunches on his neck. We did everything we could think of to relieve him, and finally I gave him Hood's Sarsaparilla. After he had taken two bottles the scrofula bunches disappeared and he has not since been troubled with them." MAY COLE, Box 120, West Bethel, Maine.

Hood's Pills are the only pill to take with Hood's Sarsaparilla. Easy and yet efficient.

Making a Canvass.

The New England Telephone Co., is making a canvass of business houses for the purpose of securing subscribers to a new system, which contemplates the introduction of circuit permitting 400 calls per year on a basis of \$25, additional calls at the rate of \$4 per hundred. Calls count against the subscriber only when the call emanates from the instrument, not where the station is signalled from another point.

To Go in Camp.

Plans for the Y. M. C. A. boy's Brigade camp are being made. The Portsmouth and Dover companies will go into camp probably at Gerrish island Kittery, on Monday June 27, remaining till July 2. General Secretaries Teague and Read will have charge of the camp.

ALL OBSTACLES NOW REMOVED.

The executors of the Haven will have succeeded in getting control of all the buildings on the Haven park grounds. The Samuel Adams house, which has been hard to purchase, was finally turned over to the trustees of the park on Thursday and the work will now be pushed.

Breaking and Entering.

A store at Kittery Point run by a Mrs. Mills was broken into on Tuesday night, the thief gaining entrance by using a false key to the front door. A box of choice ten cent cigars were taken but the proprietress failed to miss anything else from the stock in the store.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

QUI VIVE SOCIAL.

Ladies of Universalist Church held an Entertainment and Festival.

The Qui Vive social, strawberry festival and entertainment given in the vestry of the Universalist church on Thursday evening by the ladies of the parish, proved a big success and was largely attended.

The ladies of the Universalist parish are noted for their cordial treatment and every social or entertainment given by them is always assured of a big crowd.

Thursday evening was no exception and as early as seven o'clock the vestry was filled by a jolly, good natured crowd. Plates of great, big luscious strawberries, with plenty of good, rich cream, were temptingly displayed and the corps of waitresses were kept busy all the evening in filling orders. Ice cream and cake were also on sale and found ready purchasers.

From eight to nine o'clock a fine concert was rendered, the following being the programme:

Qui Vive Duet.
Misses Alice Hanson and Flora Dimick.
Solo, "Slumber Song."
Miss Lucy Hoyt.
Piano Duet.
Misses Alice Hanson and Mary Garland.
Trio.
Misses Alice White, Bessie Walden and Ethel Campbell.
Piano Solo.
Miss Georgietta Frisbee.

A number of selections on a graphophone helped to fill out the programme and furnished much enjoyment to the audience.

The four tables, which were prettily decorated, were in charge of the following ladies:

Table No. 1.—Misses Alice Hanson and Nellie Brown and Mrs. Albert H. Entwistle.

Table No. 2.—Mrs. Harry J. Freeman, Mrs. C. H. Dickins and Mrs. Wallace Junkins.

Table No. 3.—Mrs. Thomas Noyes, Misses Mary Garland and Flora Dimick.

Table No. 4.—Mrs. R. I. Walden, Mrs. William H. White, Jr., and Mrs. J. Walton.

Miss Gertrude Bosworth presided at the cake table, while Mr. William H. White, Jr., officiated as cashier.

The ladies were assisted by the following gentlemen: Messrs. Thomas D. Noyes, William H. Noyes, Wallace Junkins, Harry J. Freeman and Albert H. Entwistle, while Rev. Curtis H. Dickins was here, there and everywhere, and saw that everything was running smoothly.

The affair passed off very pleasantly and the ladies are to be congratulated on the success attending their efforts.

Bad Bicycle Accident

Ray Brown, the younger son of Mr. and Mrs. Walter S. Brown of Pleasant street, met with a severe accident Thursday evening on State street, by falling from his bicycle in such a manner that the point of one of the handlebars struck him over the heart as he fell.

The boy was unable to rise from the street so badly was he hurt. He was picked up and carried to his home and it was some time before he regained consciousness.

Had the blow been much harder it would have almost certainly resulted fatally.

With the Police

Officer Robinson arrested a sailor, drunk, on Nobles Island last evening and locked him up for the night.

One lodger occupied a cell at the police station last evening.

Marshall Entwistle was busy yesterday, locating a horse and team that a well known gentleman let a friend of his take and who failed to return the same at the time he promised. The marshal got track of the turn-out in Great Falls last evening but the fellow was on his way home by that time and he made everything alright with the owner.

K of P Notice

The members of Damon lodge are requested to meet at Pythian hall, Sunday June 19th, at 9 30 a. m. to attend memorial service at the Universalist church. All members of the order are requested to be present.

Per Order, C. C. Dark clothes, white gloves.
